PROFILE

Frontend Developer with 3 years of professional experience, specializing in React.js and modern frontend architectures. Skilled in building performant, scalable, and maintainable web applications. Experienced in collaborating with cross-functional teams and delivering responsive UIs and robust features. Proficient in TypeScript, Redux Toolkit, Styled Components, and familiar with backend tech like Node.js and Express.js.

TECHNICAL SKILLS

Languages/Frameworks: JavaScript, TypeScript, React.js, Redux Toolkit, Next.js, HTML, CSS, Bootstrap,React query
UI Libraries: Ant Design, Material-UI, Styled-Components, React Hook Form
State Management: Redux Toolkit, Context API, Zustand
Backend: Node.js, Express.js
Tools: Git, WebSocket, Socket.io
CRM: HubSpot, Monday.com

EXPERIENCE

Executive Web Developer (Frontend Developer)   Nov 2024 – Present
Capanicus, Mohali Chandigarh Punjab

- Implemented telephony features (DID number provisioning, IVR configuration) and real-time calling using JsSIP and WebSockets, enabling robust voice communication flows.
- Designed and delivered real-time chat and presence features to improve user-to-user responsiveness and reliability.
- Integrated Jitsi-based video conferencing with advanced controls (mute/unmute, camera, background effects), improving meeting UX.
- Built modern UIs using Tailwind CSS and Ant Design components; ensured responsive and accessible interfaces.
- Integrated HubSpot and Monday.com with two-way sync for contacts and tasks to streamline CRM and workflow automation.
- Developed custom browser extension features to extend web app functionality.

Frontend Developer (Software Engineer)   Sep 2022 – Oct 2024
Wits Innovation Lab, Kharar, Punjab

- Built ChatGPT-powered platform with voice Q&A and image-based responses (OpenAI API integration), enabling conversational AI features.
- Developed HRMS with role-based access controls, Google OAuth, Redux-managed themes, and secure routing across modules.
- Implemented e-commerce features and payment flows using Razorpay and Stripe; added QR-code features and ONDC buyer integrations.
- Built interactive video player with speed, zoom, rotate and canvas drawing tools for media analytics/features.

PROJECTS

MyCountryMobile (UCaaS)   *React.js, React Query, Zustand, HubSpot CRM, Tailwindcss*

- Built calling, group calling, IVR flows, and DID provisioning for a unified communications app, increasing call handling efficiency.
- Added omni-channel chat and Jitsi-based video conferencing.
- Integrated HubSpot CRM for contact workflow automation and analytics.

E-commerce ONDC Project   *React.js, Redux Toolkit, Ant Design*

- Developed e-commerce module with ONDC integration and smooth checkout flow.
- Implemented Razorpay, Stripe, and QR-code payment options.
- Created modular, reusable Ant Design components.

Blast Teams Website (Sports Analytics Platform)   *React.js, Chart.js, Tailwindcss*

- Created sports training site with interactive video player and analytics dashboards.
- Delivered tools for speed control, zoom, rotate, and drawing on videos, reducing analysis time by **80%**.
